

2-Series Radial Combined Bearings With Stud

Published identification references for radial combined bearings with stud.

Model	Cross-reference	Published OD	Published height	Verification
2.0363	TR111	62 mm	62.5 mm	Confirm controlled drawing
2.054-2.062	Precision radial family	Model drawing	Model drawing	Confirm each model envelope
2.063	TR120 / MR0120	149 mm	74 mm	Confirm controlled drawing

Verification notes

- Load ratings and remaining mounting dimensions require the controlled drawing.

Before ordering, confirm the current controlled drawing, suffix, mounting geometry, load case, lubrication, temperature and inspection scope.
